

KUSH MAN SHRESTHA

Sr. QA Engineer · Project Manager

✉ sthakush@gmail.com ☎ +977-9849527999 🌐 shresthakush.com.np 🔗 linkedin.com/Kush

Professional Summary

Quality Assurance professional with **5 years of experience across SaaS, web, mobile, and enterprise applications**, specializing in functional, regression, integration, UAT, performance, security, and usability testing. Experienced in **QA leadership, test strategy, team mentoring, requirement analysis, defect management, and release management**. Strong background in Agile/Scrum and cross-functional collaboration, with a focus on delivering reliable, high-quality software throughout the SDLC.

Professional Experience

Project Manager, Innovate Tech Pvt. Ltd. 🌐

July 2025 – Present

- Coordinated **project timelines, deliverables, priorities, and dependencies** across development, QA, design, and business teams.
- Worked with stakeholders to gather and clarify **business requirements, project objectives, and feature priorities**.
- Monitored project and sprint progress, identified **blockers and delivery risks**, and followed up with responsible teams to maintain timelines.
- Coordinated communication between stakeholders and cross-functional teams, ensuring requirements, changes, and priorities were clearly understood.
- Supported **release planning and go-live coordination**, tracking pending activities and ensuring key deliverables were completed on schedule.
- Maintained project documentation including **requirements, project trackers, meeting outcomes, release records, and status updates**.
- Contributed to **product roadmap and feature planning**, including AI-driven features such as automated question generation and analytics dashboards.

Sr. QA Engineer, Innovate Tech Pvt. Ltd.

July 2024 – Present

- Led QA activities across **SaaS, web, mobile, and enterprise applications**, ensuring quality throughout the software development lifecycle.
- Developed **test strategies, test plans, test cases, and test scripts** based on business and technical requirements.
- Performed functional, regression, integration, smoke, UAT, usability, API, performance, security, and mobile application testing.
- Managed the **complete defect lifecycle**, from identification and prioritization to verification and closure, ensuring critical issues were addressed before release.
- Led **UAT and release validation**, assessing product readiness against acceptance criteria and defined quality standards.
- Conducted API testing using **Postman**, performance/load testing using **JMeter**, and security testing using **Burp Suite**.
- Monitored **system usage and performance metrics through Grafana**, analyzing utilization and performance trends and preparing QA/performance reports.
- Reviewed test artifacts and **mentored junior QA engineers**, improving testing practices, coverage, and consistency.
- Collaborated with developers, product teams, designers, and stakeholders to identify quality risks and resolve complex functional issues.

Mid Software QA Engineer, Innovate Tech

January 2023 – July 2024

- Designed and maintained test plans, test cases, and test scripts for functional, regression, and integration testing across web and platform-based applications.
- Executed structured manual testing to identify functional defects and usability issues prior to release, supporting stable product launches.
- Participated in sprint planning and daily stand-ups, aligning QA activities with sprint goals and release timelines.
- Streamlined QA documentation processes, improving consistency and handover quality across the QA team.

Associate QA

January 2022 – January 2023

Project Business Analyst (Trainee), InfoDevelopers Pvt. Ltd.

July 2021 – December 2021

- Participated in **requirement-gathering sessions and stakeholder meetings**, helping define project objectives and business needs.
- Prepared and maintained **Software Requirement Specifications (SRS), user stories, and process flow diagrams** to support development and QA teams.
- Tracked and documented **requirement changes**, working with project managers to maintain scope and requirement accuracy throughout the project lifecycle.

Core Skills

QA & Testing Types

Manual Testing · Functional Testing · Regression Testing · Integration Testing · Smoke Testing · UAT · Usability Testing · Performance / Load Testing · Security Testing · Non-Functional Testing

Testing Tools

JMeter · Burp Suite · Postman (API) · Swagger (API)

QA Leadership

Mentoring & Coaching · QA Onboarding · Test Case Review · Process Improvement · Quality Standards Definition · Junior QA Management

Soft Skills

Communication · Problem Solving · Quick Learner

Project Management

Agile / Scrum · Sprint Planning · Backlog Grooming · Stakeholder Communication · Release Management · Cross-Functional Coordination

Test Management

Test Plan Design · Test Case Writing · Test Script Design · Defect Tracking & Bug Reporting · QA Documentation · Requirement Analysis · Release Sign-Off

Tools & Platforms

GitLab · Git · AWS · CI/CD · Figma · InVision · Slack · Google Workspace · Microsoft Office / Excel

Projects

KungFu Quiz (KFQ) Platform , Project Manager

- Coordinated cross-functional teams across design, development, and QA to deliver new platform features on schedule.
- Directed UAT and final release reviews, ensuring production readiness across the KFQ, Sifu, and KA platforms.

Interactive Video Publisher (IVy), QA Engineer

- Tested an **interactive video publishing platform**, focusing on question triggers, playback behavior, and response capture.
- Validated multiple **question formats and interactive scenarios** to ensure reliable learner interactions across supported configurations.

My Second Teacher (MST) Platform & Regional Forks, Sr. QA Engineer

- Led QA across **MST and regional platforms for Nepal, Indonesia, and Singapore**, ensuring consistency across localized product versions.
- Validated **core learning workflows, platform integrations, and region-specific functionality** across multiple product environments.
- Supported **release validation and cross-platform quality assurance** for ongoing feature and content updates.

Home School Asia (HSA) ☺, Sr. QA Engineer

HomeSchool Asia (HSA) – Online Learning & Examination Preparation Platform

- Performed QA for an **online learning and examination-preparation platform**, covering student learning and assessment workflows.
- Tested **interactive video lessons, revision content, quizzes, mock exams, past papers, scoring, and diagnostic reports**.
- Validated **student progress, assessment results, content delivery, and reporting** across subjects, chapters, and examination levels.
- Performed **release validation and regression testing** to ensure new features and content updates did not impact existing learning workflows.

Apollo BO, Sr. QA Engineer

- Performed QA for a **dedicated administrative platform** used to manage and control back-office operations supporting the MST ecosystem.
- Tested **user management, content, configuration, reporting, and administrative workflows**, including business rules and permissions.
- Validated **data synchronization and end-to-end integration** between Apollo Backoffice, MST, and other publishing platforms.

eBook Publisher, Project Manager

- Coordinated the development and delivery of an **eBook publishing platform**, managing requirements, priorities, and cross-functional activities.
- Coordinated with **content uploading teams** to manage publishing activities and ensure content was uploaded accurately and on schedule.
- Worked with the **marketing team to plan and execute activities, collect performance reports, and analyze results** to identify areas for improvement and platform upgrades.
- Oversaw **feature delivery, testing coordination, and release activities**, ensuring improvements were aligned with business and user requirements.

Work-Related Learning (WRL) HRM Module, Project Manager & QA Lead

- Led and mentored **interns/trainees** in delivering a 20+ feature HRM web application covering employee management, leave, approvals, and event calendars.
- Managed **task allocation, quality standards, requirements, and delivery milestones** across the project lifecycle.
- Acted as both **Project Manager and QA Lead**, coordinating development, testing, and delivery.

Education

MScIT and Applied Security, Islington College, London Metropolitan University ☺

2024 | Kathmandu, Nepal

BSc (Hons) in Computer Science, Herald College Kathmandu, University of Wolverhampton ☺

2019 | Kathmandu, Nepal
